DEPARTMENT OF THE PROVINCIAL SECRETARY.

"BRITISH COLUMBIA CORPORATION INCOME TAX ACT, 1949."

May 10th, 1950.

PURSUANT to section 56 of the "British Columbia Corporation Income Tax Act, 1949," being chapter 63 of the Statutes of 1949, His Honour the Lieutenant Governor in Council has been pleased to make the following regulations:—

REGULATIONS UNDER THE "BRITISH COLUMBIA CORPORATION INCOME TAX ACT, 1949."

PART I.

Capital Element of Annuity Payments.

100. (1) For the purposes of paragraph (h) of subsection (1) of section 10 of the Act, if an annuity is paid under a contract the amount deemed to be a return of capital is that proportion of each annuity payment that the consideration or purchase price of the contract is of the total of the payments

(a) to be made under the contract, in the case of a contract for a term of years certain, or

(b) expected to be made, in the case of a contract under which the continuation of the payments depends in whole or in part on the survival of a person.

(2) For the purposes of this section,

(a) where the continuance of the payments under any contract depends on the survival of a person, the table of mortality known as the 1937 Standard Annuity Table as published in Volumes XXXIX and XL of the Transactions of the Actuarial Society of America shall be used in computing the payments expected to be made under the contract, calculations being based on complete expectations of life, and Gompertz's Law of Mortality shall be deemed to apply throughout the Table;

(b) where the annual payments commence on the expiry of a term of years or on the death of any person, then the consideration for the contract shall be taken to be the lump sum, if any, which the person entitled to the said annual payments might have accepted in lieu thereof, or the sum ascertainable from the contract as the present value of the annuity at the date the payments commence, and where there is no such sum, then the consideration shall be taken to be

(i) in the case of a contract issued by the Annuities Branch of the Dominion Department of Labour, the premium or premiums paid accumulated with interest at the rate of 4 per cent. per annum to the date of expiry of the said term of years; and

(ii) in the case of other contracts, the present value of the said payments computed, as at the date the payments commence, on the basis of a rate of interest of 4 per cent. per annum, and, where the payments depend on the survival of a person, probabilities of survival according to the said table of mortality;

(c) where the continuance of the annual payments under any contract depends on the survival of a person, the age of that person on any date as of which a calculation is being made shall be determined by subtracting the calendar year of his birth from the calendar year in which such date occurs; and

(d) where the continuance of the annual payments under any contract depends on the survival of a person, and where, in the event of the death of that person before the annual payments aggregate a stated sum, the contract provides that the unpaid balance of the stated sum shall be paid, either in a lump sum or instalments, then, for the purpose of determining the expected term of the contract, the contract shall be deemed to provide for the continuance of the payments thereunder for a minimum term certain equal to the nearest integral number of years required to complete the payment of the stated sum.

PART II.

Consolidated Returns.

200. Election by a corporation to file a return in accordance with subsection (1) of section 54 of the Act shall be made by forwarding by registered mail to the Minister the following documents in duplicate:

(a) a letter stating that the corporation elects to file a consolidated return as provided in section 54 of the Act;

(b) a certified copy of the resolution of the directors of the corporation authorizing the election to be made; and

(c) a certified list showing, for each corporation affected,

(i) the address of head office,

(ii) the date on which the taxation year ends, and

(b) a certified copy of the resolution of the directors of the corporation authorizing the election to be made; and

(c) a certified list showing

(i) the names and addresses of the registered shareholders and the number of shares of each class held by each,

(ii) the names and addresses of the holders of the corporation's bonds, debentures, or other funded indebtedness, if any, and the amounts of the par values of same held by each person, and

(iii) the names and addresses of the beneficial owners of shares, bonds, debentures, or other funded indebtedness in cases where the registered shareholder, or the holder, as the case may be, is not the beneficial owner.

301. Election to be taxed under section 46 of the Act shall be revoked by a corporation by forwarding by registered mail to the Minister the following documents in duplicate:

(a) a letter stating that the corporation revokes its election, and

(b) a certified copy of the resolution of the directors of the corporation authorizing the revocation of the election.

302. (1) For the purpose of paragraph (g) of subsection (1) of section 12 of the Act, a corporation tax means a specific corporation tax or a corporation gross revenue tax as hereinafter defined except any such tax that was imposed on or before September 1st, 1941, if the rate of or manner of imposing the tax has not been changed since that day; provided that where the rate of or manner of imposing any such tax that was imposed on or before September 1st, 1941, has been changed after that day, the tax shall be deemed to be the amount of tax payable by the taxpayer minus the amount that would have been payable by him if there had been no change.

(2) An amount deemed to be a corporation tax under paragraph (a) of subsection (5) of this section is a corporation tax for the purposes of paragraph (g) of subsection (1) of section 12 of the Act notwithstanding anything contained in subsection (1).

(3) For the purposes of this section where a charge by way of a corporation tax is imposed on one class of persons and that charge or a like charge is imposed on another class of persons on whom such a charge might be deemed to be imposed by way of royalty or rental, the charge or the like charge on the second class of persons is a corporation tax.

(4) Where a corporation tax was imposed under legislation in force on or before September 1st, 1941, but the legislation was suspended or repealed pursuant to a Wartime Tax Agreement and that legislation or a new enactment in the place thereof imposing the same tax was brought into force after the expiration of the Wartime Tax Agreement, the tax shall be deemed to have been imposed on or before September 1st, 1941, for the purpose of this section.

(5) In this section "specific corporation tax" means a tax or fee other than a tax on net income or gross revenue, the imposing of which singles out for taxation or for discriminatory rates or burdens of taxation corporations, or any class or classes thereof, or any individual corporation, either formally or in effect, by imposing a tax or fee on or in respect of any act, matter, or thing or any activities or operations mainly done by, or affecting, or carried on by corporations, or otherwise, except

(a) a bona fide and reasonable Provincial licence, registration, filing, or other fee of an amount not in excess of

(i) the amount of \$250 per annum for each corporation, or

(ii) the amount of the fee imposed on or immediately prior to September 1st, 1941,

whichever is greater, and if it does exceed the said greater amount, the amount of the excess shall be deemed to be a corporation tax for the purpose of this section;

(b) a licence fee or other fee or tax for specific rights, benefits, or franchises granted by a municipality, or where they are exercised or enjoyed only in territory not included in any municipality by any authority (including a Province) having jurisdiction in such territory;

(c) any assessment under the Workmen's Compensation Act of any Province;

(e) any royalty or rental on or in respect of natural resources within a Province.

(6) In this section "corporation gross revenue tax" means a tax that is levied on the gross revenue or any part thereof of a corporation, but does not include

(a) a bona-fide and reasonable business or occupancy tax imposed by a municipality or, in a territory not included in a municipality, by any authority (including a Province) having jurisdiction in such territory on the gross revenue or gross receipts within the municipality or territory from all or part of the business of

(i) a telephone, electric light, electric power, gas, street railway or bus company, in lieu of taxes imposed on power lines, pole lines, towers, cables, wires, conductors, conduits, equipment, mains, tracks, and other like property or improvements, at a rate not in excess of 3 per cent. of the gross receipts or gross revenue subject to the tax; or

(ii) of any other corporation if

(A) the tax is imposed under legislation enacted prior to June 27th, 1946,

(B) the tax is in lieu of such a tax based on floor space or upon the rental or assessed value of property,

(C) the tax is imposed on a corporation or class of corporations that is subject to the said tax under legislation enacted prior to June 27th, 1946, and

(D) the rate of tax is not in excess of the general tax rate;

(b) "rental" means a charge imposed on a person in respect of the occupation or use by him of a natural resource, whether improved or unimproved, including the use of water or water power sites, without severance, taking, extraction, or removal thereof or of any part thereof, the real intent and purpose of which charge is to compensate for the value of such occupation or use; and

(c) "royalty" means a charge

(i) required to be paid by a person in respect of any right conferred on or vested in him to sever, take, extract or remove anything forming part of the natural resources of a Province, including therein timber, mineral ore, petroleum and natural gas, and wild animals or fish the right to take which forms part of said natural resources,

- (ii) the amount of which is determined by reference to the quantity or value or both of the thing that he severs, takes, extracts or removes, or alternatively in the case of mineral ore, the value at market prices of the minerals contained therein after extraction therefrom, and
- (iii) the real intent and purpose of which is to compensate a Province for the value in whole or in part of the said thing prior to its severance, taking extraction or removal;

but does not include a charge, the amount of which is determined in relation to the profits or gross receipts derived by the said person from the sale of products produced by the processing or manufacturing of the said thing unless provision is made for a reasonable deduction from the profits or gross receipts in determining the amount of the charge, in respect of the costs and value added to the said thing by reason of the processing or manufacturing for the purpose of eliminating, in the determination of the amount of the charge, any value added to the said thing by the said processing or manufacturing.

PART V.

500. (1) The amount that a taxpayer may deduct from income under paragraph (1) of subsection (1) of section 10 of the Act shall be that proportion of the total taxes on income paid by him to a Province, or to a Canadian municipality in lieu of taxes on property or any interest in property (other than his residential property or any interest therein), that

(2) An election under subsection (1) shall be made by registered letter addressed to the Minister.

SCHEDULE B.

1. For the purpose of paragraph (e) of subsection (1) of section 600 of these regulations, the amount that may be deducted in computing the income of a taxpayer for a taxation year in respect of a timber limit is the lesser of

- (a) an amount computed on the basis of a rate (computed under section 2 of this Schedule) per cord or board foot cut in the taxation year; or

3. In lieu of the deduction otherwise determined under this Schedule, a taxpayer may elect that the deduction for a taxation year be the lesser of

- (a) \$100; or

- (a) the undepreciated capital cost to the taxpayer as of the end of the taxation year (before making any deduction under section 600 for the taxation year) of the property

by

- (b) the number of cords or board feet of timber in the limit or section thereof as of the commencement of the taxation year as shown by deducting the quantity cut up to that time from the amount shown by the latest cruise.

3. Where a part of the property of the class is used in connection with one timber limit or a section thereof and a part is used in connection with another limit or section thereof, a separate rate shall be computed for each part of the property, in the manner provided in section 2 of this Schedule, as though each part of the property were the taxpayer's only property of that class.

SCHEDULE D.

1. For the purpose of paragraph (g) of subsection (1) of section 600 of these regulations, the amount that may be deducted in computing the income of a taxpayer for a taxation year in respect of an industrial mineral mine described in paragraph (g) of subsection (1) of section 600 of these regulations is the lesser of

- (b) the undepreciated capital cost to the taxpayer as of the end of the taxation year (before making any deduction under section 600 of these regulations) of the mine.

2. The rate for a taxation year is,

- (a) if the taxpayer has not been granted an allowance in respect of the mine for any previous year, an amount determined by dividing the capital cost to the taxpayer minus the residual value by the total number of units of commercially mineable material estimated as being in the property; and
- (b) if the taxpayer has been granted or is deemed to have been granted an allowance in respect of the mine for a previous year,
 - (i) if no rate has been determined under subparagraph (ii), the rate employed to determine the allowance for the most recent year for which an allowance was granted, or
 - (ii) where it has been shown to the satisfaction of the Minister before the taxation year that the quantity of commercially mineable material

is, in fact, a different quantity from that employed in determining the rate for the previous year, a rate determined by dividing the capital cost minus the residual value by the quantity so shown.

3. In lieu of the deduction otherwise determined under this Schedule, a taxpayer may elect that the deduction for a taxation year be the lesser of

(a) \$100, or

(b) the amount received by him in the taxation year from the sale of mineral.

4. In this Schedule, "residual value" means the estimated value of the property if all commercially mineable material were removed.

1. PERMITS.

(a) On and after such date as may be notified for the district or area concerned, by publication of a notice in the Gazette, it shall be unlawful, excepting as hereinafter provided, for any person to construct, install, or alter any electrical work in or upon any premises within the limits of such district or area until he shall have made application in writing and obtained a written permit therefor from the Inspector, and any person who does any such work without being the holder of a written permit therefor from the Inspector shall be guilty of an offence against these regulations punishable on summary conviction by a fine not exceeding fifty dollars (\$50).

(b) Such application shall clearly set forth the proper address of the premises concerned, with full details of the ownership, occupation, and purpose for which said premises are to be used, and shall list in detail the particulars of size and voltage of service, number of outlets, number and sizes of switches, panels, motors, and such other details as may be required on the application form supplied by the Inspector of Electrical Energy.

(c) Application for a permit for electrical work shall be submitted by the person carrying out the work, and shall be signed by him. It shall be accompanied by payment of inspection fees as set forth hereinafter, and no permit shall be issued until such payment has been made. The cost of the permit is to be included in the inspection fees.

(d) Issuance of a permit shall not entitle the holder thereof to install any electrical work which is not in accordance with the regulations, and notwithstanding anything which may be written in the permit, the Inspector may order such changes or additions as may be required to bring the work into conformity with such regulations as may be in force.

(e) The Inspector shall have the right to collect further inspection fees or to make such adjustments as may be necessary to correct any error in the calculation of fees made at the time of issuance of the permit.

(f) Every electrical installation shall be commenced within ninety (90) days after the date of issuance of the permit therefor, after which period said permit shall be deemed to

be void unless the holder shall have obtained an extension in writing from the Inspector.

(g) Excepting in those districts or areas in which the certification of electrical contractors is not in effect, no permit for electrical work shall be issued to any person who is not the holder of a Certificate of Competency or annual permit in good standing from the Government of the Province of British Columbia entitling him to carry out such work within the Province; provided that nothing in these regulations shall prohibit any person from obtaining a permit to carry out personally any electrical work on or within his own premises. No permit may be transferred from said holder to any other person. Such transfer shall be deemed to have rendered said permit null and void unless written authority for the transfer shall have first been obtained from the Inspector.

(h) Upon completion of the electrical work as covered by the permit, the holder thereof shall notify the Inspector in writing on the prescribed forms that the said work is ready to be inspected. As soon as practicable after receipt of such notification, the Inspector shall carry out an inspection of said work, and shall issue a certificate of approval, or shall order such changes as may be necessary to bring the work into conformity with the regulations. Excepting as hereinafter provided, no electrical work shall be connected to any source of electrical energy until final certificate of approval has been issued therefor.

(i) Payment of the inspection fee shall entitle the permit-holder to one inspection and one reinspection. Should any further inspections be necessary, each subsequent inspection shall be charged for at the rates set forth under Miscellaneous Inspections. (See Schedule R.)

(j) No person shall render any electrical work or portion thereof inaccessible by lathing, boarding, or any other building construction until said work has been inspected and approved by the Inspector. The Inspector may order the immediate suspension of any or all electrical work by posting a notice on the premises or by issuing written instructions to the permit-holder, and it shall thereafter be unlawful for any person to proceed with such work until permission therefor has been given by the Inspector.

(k) The Inspector may at his discretion refuse to issue a permit for electrical work in or upon any premises where the existing electrical work is not in accordance with the regulations.

2. ANNUAL PERMITS.

(a) Annual permits may be issued by and at the discretion of the Inspector to the operator of any industrial, commercial, or other establishment in which said operator employs his own full-time electrician or electricians, and in which the nature of his business necessitates alterations, repairs, or additions to the plant at short notice. Such alterations, repairs, or additions may be carried out by said operator's own electrician or electricians, without the formality of taking out a permit for each such alteration, repair, or addition, provided that the said operator is the holder of an annual permit for the current calendar year. Such annual permit shall not, however, entitle the holder to proceed with any major addition to or expansion of the plant.

(b) Before beginning any major alteration to or expansion of the plant, the operator thereof shall obtain a permit as required by section 1 of these regulations, and shall pay all fees as required by section 6 herein. He shall submit for examination such plans and specifications as may be required under section 4 and shall pay such fees as are prescribed therein.

(c) For the purposes of this regulation a major alteration or addition shall be deemed to be one which involves the alteration or addition

of electrical equipment of which the combined horse-power exceeds the amount specified in the annual permit for the said establishment.

(d) Each establishment for which the operator holds an annual permit shall be inspected every six months, or as soon thereafter as practicable. The operator shall maintain in his establishment at all times an accurate record of all alterations and additions which have been carried out in the said establishment since the last previous visit of the Inspector. Such record shall be made available to the Inspector upon request.

(c) There shall be an annual inspection fee for each public utility as prescribed hereunder. The fee shall provide for periodic inspection of all generating, distribution, and associated equipment. The said fee shall be based on the installed capacity of the generators which supply energy to the system. In the case of a city, municipal, or similar body which purchases electrical energy in bulk from another public utility and distributes to consumers, the fee shall be based on the maximum one-hour demand in the preceding year as measured on the metering equipment at the point of supply. Where no maximum-demand meter exists, the fee shall be based on the installed transformer capacity of the substation from which the said city, municipality, or similar body receives its supply of electrical energy. In the case of a person who generates electrical energy primarily for consumption by his own business, but which also distributes for consumption by, or sale to, his employees or to the public, a portion of such energy in excess of fifteen per centum (15%) of his generating capacity, the inspection fee shall be based on the installed capacity of the transformers which supply electrical energy to such consumers. The annual fee shall be computed on the basis of one and one-half cents (1½c.) per kilovolt-ampere of generator capacity, maximum one-hour demand or transformer capacity of the substation, as the case may be. On or before the first day of April in each year, every public utility shall submit to the Inspector of Electrical Energy a true record of its installed generator capacity or substation transformer capacity as of the thirty-first day of December in the preceding year, or its maximum one-hour demand for the preceding year. The fee for each calendar year shall become due and payable on or before the fifteenth day of May of that year.

(d) The minimum annual inspection fee shall be five dollars (\$5).

With reference to Regulation 1 of the said regulations, the district stipulated may be more particularly described as follows: All that portion of the Province of British Columbia bounded on the south by the International Boundary; on the east by the west bank of
